Peoples is One of the First to Bring Gig Internet to Rural KS

We're excited to announce that Peoples Telecommunications, LLC is one of the first rural providers in Kansas to offer Gigabit (Gig) Internet services to our residential and business customers. Peoples is able to offer these services through our Fiber-to-the-Home network in LaCygne.

According to Gigcommunities.net, "Gigabit broadband delivers 100x faster Internet speeds than traditional broadband, creating a next-generation broadband experience that has no rival." Gigabit speeds are the equivalent of 1,000 Mbps.

In addition to these Gigabit Internet services, Peoples has also launched other incredibly fast Internet packages ranging from 10 Mbps to 100 Mbps download. Residential customers can purchase additional upload speeds for those households with multiple users accessing the Internet at the same time or enjoying online gaming. In addition, we're now offering symmetrical Internet plans (the same speed for upload and download) to meet the specific needs of business customers.

"Peoples has prided ourselves on staying abreast of the latest technology. When you live in a rural community, it's even more important to have access to broadband—not only for your children's sake in education, but also for businesses that need such a connection in order to compete with the rest of the world. Peoples has the fiber network required for our consumers to get the broadband connection they need," notes Kathy Billinger, CEO/GM.

Peoples Fiber Network Expanding to Louisburg

Peoples Services, LLC is excited to announce that Louisburg will become one of the first rural communities in Kansas with access to fiber service offerings including Internet and TV.

This summer, the citizens of Louisburg will see contractors that work for Peoples Services, LLC constructing a Fiber-to-the-Home network. To start, the build-out will be targeted to specific areas of town. Other areas will be considered when these areas are complete, based on interest. Once connected to the network, customers will have access to Internet speeds up to a Gigabit and a robust TV lineup.

Peoples Services, LLC is the fully owned subsidiary of Peoples Telecommunications, LLC, of La Cygne, KS.

Words of Wisdom for New Graduates and Others

You don't have to be a graduating senior to benefit from the inspiring words of commencement speakers. We can all learn from the valuable advice shared by these famous speakers in the past.

Peoples congratulates the graduates in our service area and wishes them well as they continue their life journeys.

"Don't ever confuse the two, your life and your work. The second is only part of the first."

— ANNA QUINDLEN,
VILLANOVA UNIVERSITY, 2000

"Death is very likely the single best invention of life. It's life's change agent; it clears out the old to make way for the new... Your time is limited so don't waste it living someone else's life. Don't be trapped by dogma, which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice, heart and intuition."

— STEVE JOBS,
STANFORD, 2005

"Real leadership comes from the quiet nudging of an inner voice. It comes from realizing that the time has come to move beyond waiting to doing."

— MADELEINE ALBRIGHT,
UNC, 2007

"Sometimes you find out what you are supposed to be doing by doing the things you are not supposed to do."

— OPRAH WINFREY,
HOWARD UNIVERSITY, 2007

"I was convinced that the only thing I wanted to do, ever, was to write novels. However, my parents, both of whom came from impoverished backgrounds and neither of whom had been to college, took the view that my overactive imagination was an amusing personal quirk that would never pay a mortgage or secure a pension. I know that the irony strikes with the force of a cartoon anvil, now."

— J. K. ROWLING,
HARVARD UNIVERSITY, 2008

"There are few things more liberating in this life than having your worst fear realized."

— CONAN O'BRIAN,
DARTMOUTH COLLEGE, 2011
